

2022 may just be the year that takes the cake for unpredictable twists and turns. But, mark my words, it'll also go down in history as the year of determination and development.

Despite the challenges posed by ups and downs in staffing, the lingering pandemic, and the ongoing global supply chain turbulence, B-Line's team remained steadfast. We tirelessly made thousands of CO₂-free deliveries on our fleet of tricycles, while also providing our diverse range of customers with critical warehouse space and trike-based advertising services.

We couldn't have achieved all this without the support of our wonderful customers, dedicated employees, and the amazing Portland community. That's why we're thrilled to present our annual B-Line Impact Report as a token of our gratitude.
